

DP World helps the local Djibouti community

Ramadan initiative sees distribution of food to the needy

Dubai, UAE, Djibouti, Djibouti, 07 September 2010: - DP World has been reaching out a helping hand to those in dire need in Djibouti as part of its Ramadan initiatives, helping around 300 families with donations of essential food items and donating Iftar daily during the Holy month.

The global marine terminal operator put together food parcels consisting of rice, flour, pasta, milk and cooking oil and passed them to needy families.

DP World is also sponsoring Iftar at three Djibouti mosques every day, feeding around 300 people daily.

Speaking about the month-long campaign, **Mohammed Sharaf, Chief Executive Officer, DP World**, said:

“Our terminal in Djibouti – just as with all our terminals around the world – is an integral part of the local community and the local economy. As a member of that community, we believe it is important to reach out to those in need. Ramadan is a time for sharing, and a perfect time for DP World to provide assistance to our neighbours in Djibouti.”

About DP World

DP World is one of the largest marine terminal operators in the world, with 50 terminals and 11 new developments across 31 countries⁽¹⁾. Its dedicated, experienced and professional team of nearly 30,000 people serves customers in some of the most dynamic economies in the world.

DP World aims to enhance customers' supply chain efficiency by effectively managing container, bulk and other terminal cargo.

The company constantly invests in terminal infrastructure, facilities and people, working closely with customers and business partners to provide quality services today and tomorrow, when and where customers need them.

In taking this customer-centric approach, DP World is building on the established relationships and superior level of service demonstrated at its flagship Jebel Ali facility in Dubai, which has been voted "Best Seaport in the Middle East" for 16 consecutive years.

In 2009, DP World handled more than 43.4 million TEU (twenty-foot equivalent container units) across its portfolio from the Americas to Asia. With a pipeline of expansion and development projects in key growth markets, including India, China and the Middle East, capacity is expected to rise to around 95 million TEU over the next ten years, in line with market demand.
