DP WORLD DELIVERS THROUGHPUT GROWTH OF 11%

HANDLING 26.2 MILLION TEU IN THE FIRST SIX MONTHS OF THE YEAR

UAE REGION REPORTS STRONGEST QUARTER EVER

Dubai, UAE Tuesday 26 July 2011 – DP World’s global portfolio of container terminals has continued to build on the excellent start to 2011 with the momentum continuing into the second quarter. Gross volumes for the first six months of the year were 26.2 million TEU or 11% ahead of the prior year.

This performance was driven by strong growth in the Asia Pacific, UAE, Africa and Americas regions, as well as new volumes from recently opened capacity in Callao, Peru and Qingdao, China. Like for like gross volume growth was 10%¹.

Our portfolio of consolidated terminals² handled 13.5 million TEU in the first six months of the year. Had our five terminals in Australia not been deconsolidated from 12 March 2011, the consolidated terminals would have delivered 10% growth ahead of the same six month period in 2010. Like for like consolidated volume growth in the first half was 8%³.

The UAE handled 6.1 million TEU in the first six months of the year, with a record 3.1 million TEU handled during April, May and June. Whilst the first six months delivered growth 11% ahead of the same period last year, as we reported in the first quarter, this continues to reflect a relatively weak comparable period in the first half of 2010.

We have continued to invest in new capacity and our development in Vallarpadam, India and Karachi, Pakistan both opened in the first quarter of the year and are making good progress.

Mohamed Sharaf, Chief Executive of DP World commented;

“DP World has delivered a very strong performance in the second quarter of the year, resulting in over 26 million containers handled for the first six months of the year, delivering

¹ Like for like gross volumes exclude the contribution of volumes from new terminals in Callao, Peru and Qingdao, China which became operational in 2010

² Until 11 March 2011, 28 of our 49 terminals were consolidated under IFRS. Following the completion of the Australian transaction on the 11 March 2011, those 5 Australian terminals are no longer accounted for within the consolidated portfolio, but are accounted for as joint ventures. From 12 March 2011 23 of our 49 terminals are consolidated under IFRS.

³ Like for like consolidated volumes take into account the de-consolidation of the five terminals in Australia from 12 March 2011 and exclude the contribution of volumes from the new terminal in Callao, Peru which began operations in May 2010

a performance ahead of the industry, reflecting our positioning in the faster growing emerging markets.

“We are particularly pleased to see the UAE achieving another milestone in container handling volumes with a record 6.1 million TEU handled in six months.

“The strong container volumes seen in the first half of the year will result in a significant improvement in first half profit after tax⁴ against the same period last year.

“As we go into the second half of the year, there is some uncertainty around the global economy making it difficult to forecast how global trade will develop. Whist this uncertainty is not, as yet, reflected across our portfolio, and with our focus on the more resilient emerging markets we still expect to deliver full year results in line with expectations.”

Volumes for the first six months of 2011

<u>Gross Volumes</u>	<u>2011 H1</u>	<u>2010 H1</u>
Americas and Australia	3.1 million	2.6 million
Asia Pacific and Indian Subcontinent	11.8 million	10.5 million
Europe, Africa, Middle East*	11.2 million	10.5 million
<u>Total TEU</u>	26.2 million	23.7 million

<u>Consolidated Volumes</u>	<u>2011 H1</u>	<u>2010 H1</u>
Americas and Australia (1)	1.7 million	2.1 million

⁴ The reference to profit after tax is before separately disclosed items

Asia Pacific and Indian Subcontinent	2.8 million	2.7 million
Europe, Africa, Middle East*	9.0 million	8.4 million
Total TEU	13.5 million	13.2 million

*UAE volumes incorporated in the Middle East volumes	6.1 million	5.5 million
--	-------------	-------------

(1) Australia was de-consolidated on 11 March 2011 and therefore volumes since 12 March 2011 are no longer be included in the consolidated figures; excluding the deconsolidation growth in the Americas and Australia region would have been 30% and growth across the global portfolio would have been 10%
