

DP WORLD CHAIRMAN MEETS WITH ALGERIAN MINISTER OF TRANSPORT Successful Investment in Algeria Highlighted

Algiers, Algeria/Dubai, UAE, 4 May 2014: - DP World Chairman HE Sultan Ahmed bin Sulayem has met with Algeria's Minister of Transport HE Amar Ghoul to discuss DP World's successful continued investment in Algeria.

DP World was awarded the concession to operate the container terminal in the Port of Algiers, DP World Djazair, in 2008. DP World Djazair is a joint venture between DP World and the Algiers Port Authority (EPAL). DP World also operates DP World Djen-Djen to the east of the capital city.

Since DP World Djazair was established, DP World has brought in new equipment and specialised training for its staff to improve efficiency and productivity, actively contributing to the continued expansion of the economic growth of Algeria.

In January this year, further investment began, with DP World beginning a two year programme that will see further upgrades to the infrastructure at DP World Djazair with the introduction of modern container handling equipment, including state of the art ship-to-shore container handling cranes to service vessels and rubber tyred gantry (RTG) cranes for the container yard.

The Algiers Port Authority has begun refurbishing the yard to prepare for the arrival of the new equipment, while DP World Djazair will rebuild the shipside berths to accommodate the container cranes, as well as repair three berths to improve efficiency, safety and security.

HE Sultan Ahmed bin Sulayem, DP World Chairman, said:

"We are grateful for the support of the Government of Algeria, the Minister of Transport and his Ministry, the Algiers Port Authority, the Djen Djen Port Authority and other government agencies.

"By working closely with our partners in Algeria, and with the excellent support of our terminal staff, we have significantly improved services at DP World Djazair, which has helped improve the efficiency of the supply chain for Algerian importers and exporters. This in turn benefits the Algerian economy and the local community."

With a strong emphasis on investing in staff development and training, DP World has already implemented a programme to upgrade staff facilities and is creating a long term programme to train and develop staff at all levels. The company is also instituting performance incentive programmes that reward the workforce for higher performance throughout the terminal with a share in its profitability.

About DP World

DP World has a portfolio of more than 65 marine terminals across six continents⁽¹⁾, including new developments underway in India, Africa, Europe and the Middle East.

Container handling is the company's core business and generates more than three quarters of its revenue. In 2013, DP World handled 55 million TEU (twenty-foot equivalent container units). With its committed pipeline of developments and expansions, capacity is expected to rise to more than 100 million TEU by 2020, in line with market demand.

DP World has a dedicated, experienced and professional team of around 30,000 people serving its customers around the world, and the company constantly invests in terminal infrastructure, facilities and people to provide quality services today and tomorrow, when and where customers need them.

In taking this customer-centric approach, DP World is building on the established relationships and superior level of service demonstrated at its flagship Jebel Ali facility in Dubai, which has been voted "Best Seaport in the Middle East" for 19 consecutive years.
